

Valerii Savchenko

Trainee Flutter Developer

EXPERIENCE

May 2020 - Present - 1 year, Lviv

Working as a freelancer on Kabanchik.ua. Approximately 20 finished projects. Mostly doing product-landings for customers. First experience with WordPress in 2019.

EDUCATION

Studying Computer Science Bachelor in LPNU(third year student)

2019 - Present

Kherson Academic Lyceum (CS major)

2016- 2019

Kherson Gymnasium №20

2008 - 2016

Personality

Started to build my work experience from having good days at the door factory, which helped me to understand the cost of time. This made me think about the work that I dream about and do my best to embody it. Programming is interesting to me both as a source of income as well as a great piece of knowledge to be explored. Love singing and playing piano.
